

Position Remedial Massage Therapist

Employer: Move Health Services Pty Ltd

Application closing date: 14/2/2018

Job Start date: ASAP

Work Type: FT, PT, afterhours and weekend available

Salary: Negotiable fee per hour or % fee split

Location: We have positions at our clinics in: New Farm, Brisbane CBD and Alexandra Hills Farm

Accreditation type: Diploma level minimum (Health Fund Registered for rebates)

About Us:

MOVE is a busy Allied Health Care clinic in Brisbane delivering an integrated solution to musculoskeletal pain and rehabilitation. MOVE osteopathy started in 2004 and has grown from being an Osteopathy only service to a multi-modal solution that now includes Osteopathy, Physiotherapy, Clinical Pilates, Exercise Physiology, Myotherapy, Remedial Massage and Acupuncture. We have accumulated over 60,000 patient files and currently complete around 3000 consults per month.

Owners, Dr Kellie Rawlings and Dr Giulian Di Venuto both graduated from the Victoria University Osteopathic Medicine program in 2002 and 2003 respectively. Both Kellie and Giulian have lectured at University level teaching clinical sciences, clinical diagnosis, patient management and manual therapy.

Whilst both consider themselves general osteopaths with a structural leaning, Kellie has a special interest in osteopathy during pregnancy and Giulian has an interest in chronic and complex musculoskeletal cases.

With 30 years of clinical experience between them, Giulian and Kellie have put together a structured mentoring program to specifically 'fast track' the development of patient management skills, clinical communication, treatment prescription and the application of Manual Therapy techniques to facilitate a multi modal solution to musculoskeletal pain and dysfunction where active, exercise based care is central.

Be part of a successful and dynamic team with:

- We are a modern health practice with computerized patient notes and appointment books so you can access your notes and appointments form where ever you are.
- You will have the opportunity to develop and grow in this multi practitioner environment.
- We have regular meetings to discuss treatment ideas, current evidence, update in knowledge and skills and discuss ideas for taking the clinic forwards.
- You will have scope to bring new ideas and initiative. We value input from all our team and write processes and procedures following consultation with the group.
- An interactive team environment. We meet regularly and enjoy team social activities away from the clinics
- We have a Pilates studio with reformers, half trapeze, wunda chair, mats, balls etc and a separate rehab gym with power rack, dumbbells, kettle bells, balls, bands etc

About you:

- You really love what you do and it is important to you to not only achieve outstanding results but to create a memorable and outstanding patient experience.
- You are passionate about Manual Therapy, enjoy being part of a team and have an interest in rehabilitation with exercise.
- You are keen to develop your hands on skills, your patient management skills and value collaboration within a team care environment.
- Pilates reformer method training is an advantage but not necessary to apply.

Job Requirements

- A Diploma registered RMT or Bachelor level Myotherapist
- Member of professional association
- Professional indemnity and liability insurance
- Keen to work within a multi-modal health team and able to identify cross-profession referral opportunities appropriate
- Willingness to build networks and referral bases
- Time management skills and ability to work independently and as part of a team
- Please note that we only want to consider people who are genuinely excited about the opportunity to work with our team here at MOVE and our valued clients and patients. We are not looking for robots, so if you are serious about your application please write "I am not a robot" at the top of your application. If you are interested in this fantastic opportunity and would like to submit your application, please send a cover letter and resume to:
